Meredith T. Hanlon

Molly Hanlon

310 Tyson Building
University Park, PA 16801
mth14@psu.edu

Education

Ph.D. Intercollege Graduate Program in Plant Biology, Huck Institute of Life Sciences, Pennsylvania State University

Anticipated Graduation Date: Fall 2016
Adviser: Dr. Kathleen M. Brown
Dissertation Title: Genetic and Molecular control of root traits important for nutrient acquisition in rice and Arabidopsis

B.S. Biochemistry, minor in Creative Writing, Allegheny College, Meadville, PA

Graduation Date: May 2009
Research Adviser: Dr. Catharina Coenen
Thesis: Roles for auxin and peroxidases in the formation of the arbuscular mycorrhizal symbiosis between *Glomus intraradices* and tomato

Publications

Presentations

Oral:

Do *real* plants do that? Creating a realistic system to study phosphorus deficiency in Arabidopsis

- 2016 Mid-Atlantic Meeting of the American Society of Plant Biologists. Swarthmore, PA, April 9, 2016.
  - **Marsho Award for Best Oral Presentation by a graduate student or post-doc**

Understanding rice root hair control using GWAS

- Penn State Plant Biology seminar series, Feburary 22, 2016.

Poster:

Buffered delivery of phosphorus drastically affects Arabidopsis growth responses to low phosphorus

- International Workshop on Plant Membrane Biology. Annapolis, MD, July 5-10, 2016.
  - **Excellent Poster Award**
- American Society of Plant Biology Meeting. Austin, TX, July 2016.

Genome wide association studies of rice (*Oryza sativa*) root hairs

- 2015 American Society of Plant Biology Meeting. Minneapolis, MN, July 2015.
- 20th Penn State Plant Biology Symposium. Penn State University, May, 2015.

Buffered delivery of phosphorus drastically alters the phenotype and gene expression in Arabidopsis roots

- 2014 American Society of Plant Biology Meeting. Portland, OR, July 2014.

Elucidating control of lateral root plagiogravitropism in Arabidopsis

- 2013 American Society of Plant Biology Meeting. Providence, RI, July 2013.
- 2013 Interdisciplinary Plant Group Symposium: Root Biology. University of Missouri, Columbia, MO, May 2013.

A role for auxin in the arbuscular mycorrhizal symbiosis

- 17th Annual Plant Physiology Symposium at Pennsylvania State University, May 2009.
- Sigma Xi Conference for Undergraduate Research, Pennsylvania State University, The Behrend College, April 2009.

Awards

- National Science Foundation Graduate Research Fellowship (NSF GRF) - 2011-2014
- NSF Graduate Opportunities Worldwide (GROW) Fellowship - 2014-2015
- Company of Biologists Travelling Fellowship - 2012
- University Graduate Fellowship - 2010-2011
- NASA Space Grant (PA Space Grant Consortium) - 2012-2014
- ARCS Scholarship - 2010-2013
- Harold M. State Research Fellowship (Allegheny College) - 2008

Teaching

- AgEco 134: Sustainable Agriculture, Science, and Policy (2015), teaching assistant.
- Horticulture 402W: Plant Nutrition (2012 - 2014), teaching assistant and guest lecturer
- Plant Biology 514: Plant Ecophysiology (2012)
- Informal instructor for R for data visualization, bioinformatics, and GWAS (2013 - present)
- Biology 580: Plant Microbe Interactions (2007- 2008), Allegheny College
- Biology 360: Plant Physiology (2008), Allegheny College
- Chemistry 110: Introduction to Chemistry (2006), Allegheny College

Service, outreach, and mentoring

- Organizer of Farmer's Market educational outreach program (2016)
- Student organizer, Penn State plant biology symposium (2015)
- Plant Biology Program Student Representative (2012 - present)
- Huck Institute Graduate Student Advisory Committee (2015 - present)
- Managing editor, Huck Graduate Student Advisory Committee blog, the BRIDGE
- ASPB iConnect Team (2014 - present)
- Faculty search committees (2009, geneticist and physiologist, Allegheny College)
- Mentoring: multiple undergraduate students, both at Allegheny College and Penn State
- Planting Science - 2012 - present
- ASPB Easter Egg Roll outreach - 2015 & 2016
- Girl Scout workshops and Penn State Science Day events (2010 - 2012)
- "This is what a scientist looks like" presentation to middle and high school students (2010 - present)
- Community Poster Presentations:
    - ARCS Scholar Event, “What’s up with roots?” Pittsburgh, PA, March 2013.
    - Penn State Graduate School Donor Outreach, “Roots, the hidden half,” Pittsburgh, PA, February 2012.
    - Council for Undergraduate Research Posters on the Hill event, “Mechanisms of Plant-Microbe Interactions.” Washington, DC, May 2009.

Other Preparation and Professional Organization Involvement

- Visiting Scholar: Umeå Plant Science Centre, Umeå, Sweden. September 2014 - January 2015.
    - Funding: NSF GROW Fellowship
    - Project: The auxin metabolome of lateral roots
    - Supervisor: Dr. Karin Ljung

- Visiting Scholar: The Centre for Plant Integrative Biology, University of Nottingham UK. July – September 2012.
    - Funding: Travelling Fellowship, the Company of Biologists
    - Project: Lateral root growth and the development of auxin gradients during growth
    - Supervisor: Dr. Malcolm Bennett.

- Research Technician: The Center for Lignocellulose Structure and Formation, Pennsylvania State University, University Park, PA. August 2009- August 2010.
    - Project: Binding partners of the cellulose-synthase complex of *Acetobacter xylinus*.
    - Supervisor: Dr. Tei-Hui Kao.

- Member: American Society of Plant Biologists
